

Benjamin Stone

109 Walnut Street, Apt 7, Lansdale, PA 19446 | C: 215-589-9164 | E: stone.bt24@gmail.com

Summary

Demonstrated ability to complete tasks efficiently despite interruptions and competing demands.

Chemist with background in Chemistry and Nanotechnology looking to join a laboratory organization as part of the Executive team involved in Chemistry and/or Nanotechnology work.

Analyst with extensive experience in Nanotechnology. Proficiencies include Laboratory Safety and synthesis.

Skills

Excellent communication

File/records maintenance

Quick learner

Knowledge of Microsoft Word, PowerPoint, and Excel

Experience

Research Assistant I | 04/2025 to 06/2026

Charles River Laboratories - Horsham, PA

Perform analytical testing, in a GLP/GMP lab, on pharmaceutical drugs using HPLC, UHPLC, and UV-Vis instrumentation. Other instrumentation used include pH meters, Fume Hoods/Ductless Balance Enclosures, Glove Bags, Density meters, Positive Displacement Pipettes/Air Displacement Pipettes.

Work on the development and validation of analytical laboratory procedures.

Understand and follow SOP guidelines for both GLP and Non-GLP analytical projects.

Completion of new and reoccurring safety courses.

Working independently on projects as well as a part of a team/with other department colleagues.

Taking part in monthly safety/EHS meetings and working on job risk assessment for the analytical laboratory.

CHEMIST I | 08/2022 to 03/2025

Quaker Houghton - Conshohocken, PA

Perform Chemical formula modification testing including pH, emulsion particle size by laser diffraction, viscosity by viscometer, emulsion stability by Turbiscan, dynamic surface tension by bubble tensiometer, oil oxidation by RapidOxy, water percentage by Karl Fisher, emulsion charge by Mutek, lubricity analysis by RCP, MTM, EHD Interferometer, & Bruker.

Completion of monthly safety courses.

Modifying concentration of raw materials based off of control formulas for better performance for current or future customers.

Knowledge training on raw materials used in formulas, current and future projects.

Work on formulation projects which include both independent and team laboratory/instrument work.

Travel to customer sites/Mills to understand how their operations work as well as assist in housekeeping issues.

LABORATORY TECHNICIAN II | 01/2020 to 08/2022

Quaker Houghton - Conshohocken, PA

Performing more in-depth laboratory testing including pH, oil concentration by moisture balance, viscosity by Anton Paar Auto-Vis, wear/friction testing by RCP, MTM, and Bruker, particle size by Mastersizer and Multisizer, Emulsion testing through Pump Stands, surface tension by Bubble Tensiometer, streaming current potential by MuTech, oil stability by Turbiscan

Completing safety modules each month

Taking part in Center of Innovation (COI) meetings

Formulating products for further testing in comparison to previous products

Further knowledge of the chemistry behind chemicals/materials used in department, projects, and formulas

Working closely with supervisor on Non-Ferrous Aluminum Rolling department projects

LABORATORY TECHNICIAN I | 08/2019 to 01/2020

Quaker Houghton - Valley Forge, PA

Performed basic laboratory testing including: pH, oil concentration by acid split, oil concentration by moisture balance, FTIR, stain, viscosity, roto-evaporation, and water content

Performing routine and non-routine testing on samples

Filing out sample data into both data and online sample sheets

Completing safety modules each month

Education

Millersville University of Pennsylvania - Millersville, PA | Bachelor of Science

Chemistry, 2018

Completed coursework in Chemistry and Nanotechnology

Nanofabrication Manufacturing & Technology Recipient

American Chemical Society Club Volunteer

Conducted research (Filtration of Au Nanoparticle Solution through CNF filters) which was published in a journal: "*Multiscale Design of Nanofibrous Carbon Aerogels: Synthesis, Properties and Comparisons with other Low-Density Carbon Materials, Carbon 124 (2017) pg. 588 - 598*"

Pennsylvania State University - University Park, PA | Certificate

Nanofabrication Manufacturing & Technology, 2017

Certifications and Accomplishments

Received certificate in Nanofabrication Manufacturing & Technology from Penn State University (Summer 2017) Participated in organizational outbreak for the American Chemical Society club at Millersville University
